School Profile

Serare School was started on the 11th of January, 1988 with an enrolment of pupils in the kindergarten.

The school campus is located 20km from the City of Nairobi. It is situated in the quietness of the peri-urban area between Karen shopping centre and Ngong Township.

Our school name '**Serare**' is derived from the Maa language, it means **to make an impression or to write**.

The school Motto is also in the Maa language - '**Inyuat**' and means "**Looking Beyond**".

The Serare School Vision is '**to bring out the best from each child**.'

The school mission has been to create an environment that is conducive for holistic learning. This is done by helping each child:

- To discover and develop their special abilities (talents)
- To develop life skills
- To realize self actualization
- To achieve academic excellence

Serare School has 3 sections: Kindergarten, Primary and High School and offers Kenya's 8-4-4 system of education.

Serare Kindergarten

Our Kindergarten is located at a different campus to the main school that lies nearer Ngong Town. It has an average of 20 pupils per class allowing the teachers to give adequate basic skills to every child. The classrooms are spacious, comfortable and airy. The playground is well maintained, safe and spacious for outdoor activities.

Primary School

The primary section is co-educational. Pupils can be day scholars or boarders.

Music & Art/Craft though not examinable subjects are taught in the primary school.

Transport is available to and from Serare School. Please ask for more information from the School's Main Office.

Girls High School

The high school was started in January 2002 with Form 1. All students are boarders.

The Management is committed to giving girls an opportunity to excel in science subjects and they are therefore encouraged to take all the pure sciences - Biology, Chemistry and Physics. Compulsory subjects are Mathematics, English and Kiswahili. Other optional subjects within the 8.4.4 system syllabus that Serare offers and students can opt to take include Music, Agriculture, CRE, History, Geography and Computer Studies.

Merit certificate is awarded to students who excel in monthly examinations in sciences and other school subjects.

At the beginning of every term, students who excel in overall academic performance get a partial scholarship towards their education at Serare.

Guidance & Counselling

The welfare of students and staff is important in Serare. Counselling sessions and seminars are held regularly to discuss the various needs of individuals or groups. The frequency of these sessions have helped streamline the discipline at Serare.

Interviews

Interviews for all school sections are conducted throughout the school year. Please contact the Main Office during office hours to book for an interview. Interviews are both oral and written.
